

Download An Introduction To Simulation

Course Duration: Two days. Registration: 8:45. Start Time: 9:00 End Time: 17:00. Outline: A comprehensive two-day programme created specifically for those with a role in clinical education and training who wish to enhance their teaching skills in simulation-based education. This two day course is designed to give you the essential foundations on which to build simulation based learning events for your scenario or course participants. Despite the successes achieved with SPDM, the adoption of information systems to manage simulation data by simulation engineers is still very low at 1%-2%. This webinar will provide an introduction to the fundamentals of Simulation Data Management for practitioners and managers. Eventbrite - GSTT Simulation and Interactive Learning (SaIL) Centre presents Introduction to Simulation (NHS Places) - Day 1 of 2 - Wednesday, 5 June 2019 at Simulation and Interactive Learning (SaIL) Centre, 1st Floor St Thomas House.
