By Greg Hunter's USAWatchdog.com (Early Saturday Release) (Programming note: I am releasing this now (Saturday 12/3/16) because I think it is the most important interview of the year on USAWatchdog.com.) The argument then turns to what has gone wrong. The most interesting feature of the book is that its answer is as much ethical as narrowly economic. Capitalism is an economic system based on the private ownership of the means of production and their operation for profit. Characteristics central to capitalism include private property, capital accumulation, wage labor, voluntary exchange, a price system, and competitive markets. By David Graeber. In the year 1930, John Maynard Keynes predicted that technology would have advanced sufficiently by century's end that countries like Great Britain or the United States would achieve a 15-hour work week., Does Capitalism Have A Future.
