

Download Treasury Of Ironwork Designs

Granted, I bought this book because I wanted a source for classic european ironwork, and this book does the trick. I would have loved, however, that the designs showed the source, or at least a list at the end of the book of the places and eras of these designs. The history of Western decorative arts is filled with splendid examples of ornamental ironwork — elaborately wrought designs for gates and fences, finials and posts, banisters, window grilles, signs and marquees, cathedral screens, and a host of other architectural and decorative features. 469 detailed examples of classic ironwork designs from Victorian era sources - grills, railings, gates, posts, banisters, screens and hundreds more examples of wrought iron work.
