Yes, more or less, but (grammar) 'patterns' is a better way to describe the organisation of words in a language. In English, 'rules' are usually made by people, and should be obeyed. Grammar is a very old field of study. Did you know that the sentence was first divided into subject and verb by Plato, the famed philosopher from ancient Greece? Notes: The written lesson is below. Links to quizzes, tests, etc. are to the left. Frequently, the conditional is used to express probability, possibility, wonder or conjecture, and is usually translated as would, could, must have or probably. English grammar is the way in which meanings are encoded into wordings in the English language. This includes the structure of words, phrases, clauses, and sentences, right up to the structure of whole texts., Basic Patterns Of Chinese Grammar.
