

Download Check Engine Light Comes On After Driving Awhile

Check engine light, VSA, triangle with exclamation lights come on after driving 1/2 hour. Scanner said Vtech selenoid not working, had it changed, same problem. The check engine light illuminates when your vehicle's computer believes there is a problem that could affect — or is affecting — your car's emissions control system. Truck will restart after sitting awhile. Power cuts out at random times. Electrical issue in the computer circuit board? If the check engine light comes on, have a code reader check what the computer is telling you the problem is. If the fuel/air mixture gets too far out of balance, the engine will have a 2006 Mercury Milan, started to have ruff idle then engine light came on then transmission and cruse control with transmission down shifting while driving down highway at 65 miles and hour and a wrench comes on also. On my code reader I was getting codes P0410 and P0491., Check Engine Light Comes On After Driving Awhile.
