

Download Cross Currents Communities Technologies Solutions

In a foreseeable future, battles may unfold using weapons and tactics that the United States is ill-prepared to detect or counter. Today's ballistic missiles take tens of minutes to cross an ocean, but tomorrow's hypersonic weapons may take merely minutes. Interdepartmental Undergraduate Program. Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. In this paper, five most emerging renewable energy sources are analyzed. These emerging renewables are either special or advanced forms of the mainstream energy sources (solar, wind, geothermal, biofuels, biomass, and hydro) or brand new technologies. A digital divide is any uneven distribution in the access to, use of, or impact of information and communication technologies (ICT) between any number of distinct groups; these groups may be defined based on social, geographical, or geopolitical criteria, or otherwise. The divide within countries (such as the digital divide in the United States ...), Cross Currents Communities Technologies Solutions.
