

Download Demand Driven Strategic Planning

The Demand Driven Adaptive Enterprise (DDAE) Model spans the operational, tactical and strategic ranges of an organization allowing it to continuously and successfully adapt to the complex and volatile supply chains we see today. FACILITATORS. Experience–Expertise–Education–Excellence. Each Chief Executive Strategic Planning MasterClass is led by two Victor-Stone Senior Facilitator-Coach-Consultants. Competency-based management (CBM) supports the integration of human resources planning with business planning by allowing organizations to assess the current human resource capacity based on their competencies against the capacity needed to achieve the vision, mission and business goals of the organization. Demand Planning is the art and science of accurately forecasting the demand for your supply chain. In these series of workshops, you will learn how to develop a baseline statistical forecast and leverage a collaborative process to add customer intelligence..., Demand Driven Strategic Planning.
