he MCF, as an international Association, holds the ethical and moral standards for Meta-Coaches around the world and at the present is the only Association with a board of examiners to receive complaints and work them through. As an International Association, members of the MCF are supported by an exclusive group and by local MCF chapters where ...A practice effect is a major psychometric issue in many Atkins cases, given that both the state and defense often test the defendant with the same IQ battery (most often a Wechsler), and often within a short test-retest interval. Such matrices can be used in probing the accuracy of a complex system network: if it is not possible to find examples for one or more of the cells of a matrix, this means that the system network predicts a combination of systemic terms that does not exist.
