

# Download Pharmacology For The Dentist

What kind of training is required to become a dentist? Dentists receive their training in graduate school, typically through a Doctor of Dental Surgery (DDS) or Doctor of Dental Medicine (DMD) program. Juniordentist.com is intended for educational, informative and entertainment purposes only. It is not intended to replace your Dental Visit. Only a proper dental Checkup by a professional in person can help diagnose the problem you are suffering from and help give you the required treatment. How do we determine how well a drug works? This lesson will discuss three important and often confused properties of drugs, affinity, efficacy, and potency, and how they differ from one another. MDC's Associate in Science in Dental Hygiene prepares its graduates to become members of a dental health team dedicated to helping individuals maintain oral health and prevent disease. A Dental Hygienist is qualified by education and licensure to provide direct patient care prescribed by the dentist, Pharmacology For The Dentist.
