Bruce Springsteen's debut album found him squarely in the tradition of Bob Dylan: folk-based tunes arranged for an electric band featuring piano and organ (plus, in Springsteen's case, 1950s-style rock & roll tenor saxophone breaks), topped by acoustic guitar and a husky voice singing lyrics full of elaborate, even exaggerated imagery. Greetings from Asbury Park, N.J. is the debut studio album by Bruce Springsteen. It was produced by Mike Appel and Jim Cretecos from July through September 1972 at the budget-priced 914 Sound Studios., Springsteen Album By Album.
