The Philippines Department of Health and WHO call for 'all-out-war' against TB 24 April 2019 - The Philippines Department of Health (DOH) and the World Health Organization (WHO) jointly call for an all-out-war against tuberculosis (TB), the number one infectious killer in the country. Tuberkulose, MTB eller TB (en forkortelse af tuberkelbakterien) er en udbredt smitsom sygdom ofte med dødelig udgang. Sygdommen forårsages af forskellige stammer fra mykobakterie-komplekset, som regel Mycobacterium tuberculosis. Tuberkulose forekommer typisk i lungerne, men kan også angribe andre organer. The boundaries and names shown and the designations used on this map do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Die Zahl der Tuberkulose-Fälle geht zurück, aber noch immer zählt die Infektionskrankheit zu den zehn häufigsten Todesursachen auf der Welt. Ein aktueller Report zeigt, wen es besonders ..., Tuberkulose.
